Spider-Man Minor Release Notes
Release Date: August 22, 2024
New Features & Functionality

ProFoRMS Enhancements

- **Data Import Results Email:** Updated the subject line of the Data Import Results email for better clarity.

Data Dictionary Enhancements

- **Response Time Improvement:** Improved response time for form structure and data element searches in the Data Dictionary.

- **New API Endpoint:** Created a new API endpoint to return all FS associated with a Data Element.

- **UMLS Mapping Tool:** Added the UMLS Mapping tool button in the Data Dictionary on the Data Element Search page so that the users can launch the tool from the Dictionary.

- **FITBIR/NTRR Resource Filters:** Resource filters are now checked by default if the user has data access to both FITBIR and NTRR entities.

Query Tool Enhancements

- **Download Functionality:** Added a download functionality to Studies and Forms in the right pane of the Query Tool for downloading data from individual studies and forms straight from the Data Table view.
- **Form and Group Names Display:** Ensured that form and group names are displayed when scrolling to the next form or group in the Data Table view (right pane).

FITBIR Public Site

- **All CDEs Tab:** Added a tab to show all CDEs and associated stats available in the system on the public site.
